Professional Summary

MBA candidate with hands-on experience across inventory and sales, field operations, process research and organic content. Managed 14,000+ SKUs, traced ~60% of an engineering workflow's time to a single bottleneck, built SOPs for a rotating field team, and grew a Pinterest photography account to 1.2M+ peak monthly views with no ad spend.

Professional Experience

Operations Executive, IOWeb3 Technologies 03/2026 – 05/2026 | Pune, India

- Coordinated field workforce and site activities across assigned project locations to meet daily video recording-hour targets
- Ran data quality checks and maintained operational reporting in Excel and Google Sheets for the operations head
- Wrote SOPs and training guidelines for a constantly rotating field workforce

Process Optimization Research Intern, Bright LumiTech Private Limited 02/2026 – 04/2026 | Hybrid, Pune

- Mapped a 5-stage engineering workflow through employee discussions and information gathering
- Identified the design phase as the primary bottleneck, accounting for ~60% of total workflow time
- Applied fishbone analysis to trace root causes; contributed to standardized intake templates

Inventory & Sales Executive, Self-employed 06/2024 – 08/2025 | Manchar, Maharashtra

- Managed 14,000+ SKUs in BUSY 21 ERP, tracking barcodes, part numbers, MRP, shelf and rack locations, and reorder points
- Conducted targeted physical audits and reconciled stock discrepancies against ERP records
- Handled retail sales for walk-in customers and garage owners, using their feedback to guide stocking and replenishment

Projects

Pinterest Content Growth & AI Automation 04/2023 – Present

- Grew a photography-focused Pinterest account to 1.2M+ peak monthly views with no ad spend, through consistent posting, Pinterest SEO and keyword optimization
- Analyzed performance and audience insights to identify high-performing themes and refine content strategy
- Building BoardMaster, an AI tool to draft pin titles and descriptions, aiming to cut hours of posting session to minutes

CandidatePro - AI Job Application Platform 07/2026 – Present

- Designed a structured prompt system that turns a job description into a tailored resume, company research, outreach messages and interview prep; works with any AI tool
- Built two prep levels; the full version adds a cover letter, a dos-and-don'ts guide and a role-specific strategy
